### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Price on 01/18/05.

The application has been amended as follows: abstract, first paragraph, lines 2-6, has been deleted.

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest an electric power supply system for LED lighting unit comprising, in combination with the remaining features of the claims, an LED and a resistor for type identification having resistance corresponding to a specification or a characteristics of use of the LED conducting circuit and a power supply unit that supplies power to the LED conducting circuit and that has a type identify portion consisting of a resistor measuring circuit that can be connected with the resistor for type identification and a constant current control portion that supplies a control current in an arbitrary range not over the maximum allowable current of the conducting circuit based on the resistance of the resistor for type identification measured by the type identify portion to the LED conducting circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
